OOO

Easy to
Manipulate.

THE SUPREME ADVANTAGES of the Loose-Leaf System over the ordinary Bound Books, are these :—

FIRST: The Accounts are all kept in exact and unfailing alphabetical order (or, if desired, in numerical or geographical sequence).

SECOND: The volume contains only "live" business—all "dead" matter and closed accounts being removed into the Transfer Binder.

THIRD: Additional leaves are readily inserted where required to accommodate the expansion of any account.

FOURTH: The laborious process of Opening New Ledgers is not required—the frame or binding of the Loose-Leaf Ledger is permanent, while the business flows through it, like a river, for all time!

A piece of aged, yellowish paper is torn and partially obscured by a white surface on the left. The paper features a technical drawing of a mechanical component, possibly a valve or a similar part, with various lines and a hatched section. Below the drawing, the lowercase letter 'd' is printed in a serif font. The paper is further damaged at the bottom, showing a dark, crumpled area that might be another page or a different material.

DUNDEE DIRECTORY.

GENERAL NOTICE.

No event of outstanding importance occurred in the history of Dundee during the past year. The economic conditions of the city were somewhat brighter than in the two previous years, although there is still great room for improvement. The mills were running ninety per cent. of their capacity, the supplies of raw material were ample, and the volume of trade was on the increase. Unfortunately a strike and lockout occurred in March last. The spinners employed in the Camperdown Jute Works, Lochee, became dissatisfied with their working conditions and ceased work, with the result that the associated employers declared a lockout, which continued for about a month. Through the efforts of Sir David Shackleton and others, the employers decided to reopen their works. The resumption, however, was of brief duration, owing to the Camperdown Works employees refusing to start under the existing conditions, and a second time a general lockout was declared, some 30,000 workers being affected. After many conferences between the parties, all the mills, with the exception of Camperdown Jute Works, were again reopened, and are now running full time.

Shipbuilding, which goes hand-in-hand with marine engineering, has been much busier this last year. The Caledon Shipbuilding and Engineering Company Ltd. turned out six large vessels. Three of these were built to the order of Messrs Alfred Holt & Co., Liverpool, the owners of the Blue Funnel Line—the twin-screw steamer “Perseus,” the largest vessel built on the East Coast of Scotland, of 10,000 gross tonnage; her sister ship the “Menelaus”; and the “Tantalus,” the first Holt freighter to burn oil fuel. Two oil tankers, the “British Commander” and the “British Commodore” (for the British Tanker Co. Ltd.), and the “Avocet” (for Messrs Yeoward), were also successfully launched. The Dundee Shipbuilding Company built a steamer for the Ellerman-Wilson Line, but this yard is now closed. The increase in shipbuilding, while assisting the engineering trade to a slight extent, did not provide much work, as most of the boats had turbine or Deisel engines, and these are not constructed locally.

The housing scarcity is still felt in the city, although many new

dwellings have been built. The Town Council is going ahead with the housing scheme, and plans were passed for tenements of two and three rooms and three storeys high to be erected at Glenagnes Road. These are expected to be ready by November next. Ten of the eighty-two houses to be built by the Dundee Garden City Association Ltd., on a site fronting Kingsway, between Fairmuir and Downfield, are now completed. These are of the semi-detached type of four to six rooms and garden. Other buildings included in the housing scheme are to be erected at Stirling Park and Broughty Ferry.

Plans were also passed for a Free Library to be built for Broughty Ferry on the site presented by ex-Lord Provost Hunter.

Much-needed additions to the Royal Infirmary can now be carried out through the munificence of Mrs Marryat, sister of the late Sir James K. Caird, Bart., to whom that institution is greatly indebted. Mrs Marryat has generously gifted £20,000 to build and equip two new operating theatres; to erect a permanent building for X-ray examinations and for electrical treatment; and to connect the main block and the Caird Hospital by a covered way. This work is now in process, and will be carried through expeditiously. The students attending University College made a street collection for the Infirmary, and were successful in collecting £1100.

In connection with the extension of Kingsway from Pitkerro Road to Arbroath Road at Strips of Craigie, the Town Council purchased from the Guthrie Estate Trustees 7·68 acres of land at a price of about £14,000. The work involved in this extension will no doubt help to reduce the number of the unemployed.

The Royal Engineers (Territorial), finding their quarters in Taylor's Lane unsuitable, purchased one-and-a-half acres of land on the Dudhope Estate adjoining Lawton farm, for the erection of a Drill Hall and parade ground, and it is expected that they will proceed to lay out the ground and begin building operations at an early date.

The War Memorial for Dundee is yet only a name. The Committee appointed to decide as to the form and site of this symbol of our gratitude, after much deliberation, have resolved to place the monument on the Law Hill.

Early in the year the Town Council and the Departments which were housed in the Old Town House removed to their new quarters in the Caird Building. What the ultimate fate of the old historic structure may be only the future can declare.

A huge business deal was concluded between the firms of Messrs J. Watson & Co., Ltd., distillers, Seagate, and Messrs Buchanan-Dewar, Ltd., and John Walker & Sons, Ltd. The business and

stocks of Messrs Watson were purchased by the latter firms at a figure of between £2,000,000 and £3,000,000.

A General Election, following the fall of Mr Lloyd George's Coalition Government, caused great excitement in the city last November. Six candidates came forward to contest the two seats, with the result that Mr Edwin Scrymgeour (Prohibitionist) and Mr E. D. Morel (Labourist) were returned as Members.

Dundee has again become a port for the landing of Canadian cattle. The first consignment since the raising of the embargo arrived last month.

A new Motor 'Bus service has been inaugurated for the benefit of those residing away from the tramway lines. This has proved a great boon, as in the circular tour from the High Street the 'bus runs via Victoria Road and William Street to Clepington Road and back by Mains Loan.

Several outbreaks of fire occurred during the past year, the most serious at the works, Carolina Port, occupied by Messrs J. T. Inglis & Son, which involved the loss of two lives.

Socially and musically Dundee made up during the past year for the lean years of the war. A splendid series of concerts was given in the Caird Hall, at which Tetrassini, Melba, Pachmann, Kreisler, and many other outstanding celebrities appeared before large and appreciative audiences. The series also included the Glasgow Orpheus Choir; and the Scottish Orchestra under the baton of Sir Landon Ronald. The Dundee Amateur Choral Union gave a very fine rendering of Berlioz's "Faust"; and the Dundee Gaelic Society again won the Lovat and Tullibardine Challenge Shield at the Mod held at Fort William. The new organ in the Caird Hall has been completed, and was formally opened on 27th June by Dr. Alfred Hollins, organist of St. George's, Edinburgh.

Amateur opera had a great vogue during the winter months, the various societies giving fine performances. "Carmen" and "The Mikado," as performed by the Dundee Operatic Co. at the King's Theatre for one week, were splendid productions both in singing and acting.

The Dundee and District Competitive Musical Festival held in May was again a triumphant success, and great praise was given by the adjudicators to the singing of the school children.

Another form of entertainment and instruction has been added to the wonders of the age. "Wireless" is now practically within the reach of all, and Dundee has not been slow in seizing the advantage. Listening-in has now become the fashion.

An innovation was made in the working of the Free Libraries by the adoption of the Open Access System. Readers are now allowed to go to the shelves and choose their books, the works being carefully classified under subjects. Three of the Branch Libraries are now reorganised under this system, and in course of time the others will be included. Amongst the donations to the Museum is the valuable Rossie Priory Geological Collection, including the cases in which the specimens are displayed, gifted by Lord Kinnaird.

Amongst other events of the past year to be noted are :—The

Students' Bazaar, held in the Caird Hall, for the purpose of raising funds for playing fields for the students (an effort which realised the sum of £7,666); the Modern Homes Exhibition, where labour-saving devices were shown; and the Grocers', Bakers', and Confectioners' Exhibition held in the Drill Hall. On behalf of Foreign Missions a Scottish Churches Missionary Campaign was successfully carried through in November and December, when eighty-two missionaries from all parts of the world visited the city. The Y.M.C.A. also held their Annual Conference, at which about 200 delegates were present.

It is satisfactory to note that there has been a decrease in petty crimes and offences, but serious crime shows an upward tendency. This may be the after effects of the Great War and of unemployment. In contrast, it is a cheering sign that the deposits in the Dundee Savings Bank show a large increase.

The health of the town has been normal, no serious outbreaks of infectious disease having occurred.

We mourn the loss of many well-known and eminent citizens. These include:—Lord Kinnaird of Rossie Priory; Mr David Erskine of Linlathen; Mr W. B. Thompson, Caledon Shipbuilding and Engineering Co.; Colonel W. H. Fergusson, The Bughties, Broughty Ferry; Mr A. Bethune Duncan (of Don & Duncan, jute manufacturers); Mr John Ogilvie, solicitor; Rev. Hugh George Watt, D.D., St Enoch's Parish Church; Rev. James Wilson, Parish Church, Broughty Ferry; Mr George Harvey, traffic superintendent, Caledonian Railway; Mr William Kinnear, shipping agent; Rev. John Mills, St Matthew's Parish Church; Mr W. J. Gordon, W.S., solicitor; Mr T. S. Robertson, architect; Mr James Macintosh, chairman of the Parish Council; Dr David Crichton, Downfield; Mr William Burns (of Burns & Harris, stationers); Mr P. W. Fleming, jute merchant; Mr Henry Buist, manager, Rockwell Works; Mr John C. Scott, jute merchant; Mr David Philip, jute merchant; Mr A. H. Ross, chemist; Mr Vaness C. Baird, Dundee Savings Bank; Rev. W. A. Dunbar, Wishart Memorial Church; Mr James B. Falconer, stockbroker; Mr Robert Locke, schoolmaster; Rev. A. C. Abel, Dudhope U.F. Church; Mr David Thomson, merchant; Mr W. D. Mollison, stationmaster, East Station; Mr W. P. Robertson, motor and coach proprietor; Mr David Craig, house proprietor; Mr Alexander Johnston, architect; Mr William R. Kydd, C.A.; Mr A. F. Durkie, miller; Mr James Lowe, architect; Mr Thomas M'Burney, Trades Union leader; Mr Ernest Pallant, bandmaster, "Mars" Training Ship; and Lady Barrie, widow of Sir Charles Barrie, shipowner.

The present issue of the Dundee Directory will be found to contain a list of Church Officials (pp. 84-88) which will doubtless be found useful. There has also been added a "Trades and Professions" section for the burghs of Monifieth, Carnoustie, Newport, and Tayport.

The left-hand half of the address side of a Post Card, as well as the back, may be used for a written communication subject to the following restrictions:—Nothing may be attached except stamps in payment of postage, a gummed label not to exceed 2 by $\frac{3}{4}$ inches bearing address of recipient, a similar label with address of sender, and illustrations and photos on very thin paper completely adherent to the card.

FOREIGN AND COLONIAL PRINTED PAPERS AND COMMERCIAL PAPERS.

The rate of postage on Printed Papers for all places abroad is $\frac{1}{2}$ d per 2 oz., and on Commercial Papers $2\frac{1}{2}$ d for the first 10 oz. and $\frac{1}{2}$ d per 2 oz. thereafter.

Commercial Papers comprise all papers or documents written or drawn wholly or partly by hand (except letters or communications in the nature of letters, or other papers or documents having the character of an actual and personal correspondence), documents of legal procedure, Deeds by public functionaries, copies of or extracts from Deeds under private seal stamped or unstamped, Way Bills, Bills of Lading, Invoices, Receipts for goods or money, and other documents of a mercantile character, documents of Insurance and other public companies, all kinds of manuscript music, manuscript of books and literary works, letters and post cards of old date which have already served their original purpose, pupils' exercises with corrections, but without comment, and other papers of a similar description.

nize. This description includes newspapers, periodical works, books (stitched or bound), pamphlets, sheets of music, visiting cards, address cards, proofs of printing, plans, maps, catalogues, prospectuses, announcements, circulars, notices, engravings, photographs, designs, manuscript for press (when sent with proofs of same), papers impressed for use of the blind, albums of photos, or card-board drawing models stamped in relief, and anything (not glass) usually appurtenant to the before-mentioned articles in the way of binding, mounting, or otherwise, and anything convenient for their safe transmission which shall be contained in the same packet. Postage stamps, obliterated or not, and all printed articles constituting the sign of a monetary value, are excluded. The products of the copying press and the typewriter are not admitted, nor, as a rule, are printed papers which have been modified after printing, either by hand or by a mechanical process. But the following exceptions are allowed:—Printed circulars may be dated in manuscript or by a mechanical process, name and address of the sender and of the recipient, as well as his trade or profession, may be added; on printed visiting cards and Christmas cards the address of the sender, or formulas of courtesy in not more than five words may be written, and on printed circulars manuscript corrections and insertions may be made as to names of commercial travellers, dates of journey, dates of departure of ships, names of persons invited to meetings, and the place, date, and object of the meetings; date of despatch may be inserted in advices of goods; printers' proofs may be corrected and the manuscript enclosed, errors in other printed documents may be corrected, and figures may be inserted in prices current, stock and share lists, &c.; books, music, photos, engravings, and Christmas cards may contain the invoice relating to them; books may have a dedication inscribed on them; in orders for books printed on cards, the works required or offered may be indicated in manuscript; to cuttings from periodicals, the title and date of the publication may be added. Circulars printed or lithographed in characters resembling those of the typewriter, or produced from typewritten originals, will be admitted, provided that they are handed in at the counter of Post Office, that special attention is called to their nature, and that at least twenty copies are posted at the same time.

Commercial Papers and Printed Papers may be posted either without a cover, or in an unfastened envelope, or in a cover easily removable for examination without breaking any seal or adhering surfaces. The packet may, however, be tied at the ends with string easy to unfasten. The name and address of the sender should be written or printed outside.

The limit of size for British Colonies or Possessions or non-Union countries are 2 feet in length by 1½ feet in width or depth; but to Foreign Countries in the Postal Union the length is limited to 18 inches. Articles liable to Custom Duties may be sent by Sample Post to certain countries only and under special regulations.

Patterns or Samples, when practicable, must be sent in covers open at the ends, and in such a manner as to be easy of examination: But samples of seeds, drugs, and such like, may be posted enclosed in boxes or bags fastened in such a manner that they may be readily opened.

There must be no writing or printing upon or in any Sample Packet for non-Union countries, except the address of the person for whom it is intended, the address of the sender, a trade mark or number, the price of the articles, the weight or size, and the quantity to be disposed of, or such as may be necessary to indicate the place of origin or the nature of the merchandise. A packet for a country in the Postal Union may contain Printed Papers, and if the rates for Commercial Papers be paid, it may also contain Commercial Papers.

The limit of weight for British Colonies or Possessions or for non-Union countries is 5 lbs., but for Foreign Countries in Postal Union the limit is 1 lb.

The limit of size for British Colonies or Possessions or for non-Union countries is 2 feet in length by 1 foot in width or depth; and for foreign places in the Postal Union 12 inches in length, 8 inches in width, or 4 inches in depth; unless it be in the form of a roll, when the limit is 12 inches by 6 inches.

POST OFFICE TELEGRAPHS.—INLAND TELEGRAMS.

The charge for telegrams throughout the United Kingdom is 1s for the first 12 words, and 1d for every additional word. Addresses are charged for. Telegrams handed in on Sundays are charged 6d extra.

Forms with embossed stamps can be obtained either singly or in books of 20, interleaved, and with a sheet of carbonic paper, price £1 0s 3d each book.

When the terminal office is a Head Post Office, the amount paid for transmission covers the cost of delivery within three miles or within the town postal delivery when that extends for more than three miles. But when it is not a Head Post Office, the message is delivered free within three miles only. The portorage on messages for places beyond the limits of the free delivery will be at the rate of 6d a mile or part of a mile, the charge being reckoned from the limit of the free delivery.

Copies of a telegram directed to more than one person in the same free delivery are delivered at a charge of 4d per copy, in addition to the ordinary telegram charges for the number of words in the addresses and text. Telegrams may be repeated, if the sender desires it, at one-half the ordinary tariff.

Persons not wishing to send to a Telegraph Office may post a telegram in an envelope addressed "Telegram, Immediate" in a wall or pillar-box, or Sub-Post Office. Telegrams so posted are sent on by next collection to the Telegraph Office for transmission free of extra charge, provided that the proper amounts have been prepaid.

No combination of words is counted as one, with the exception of those which are ordinarily written as one, or coupled by hyphens, as "mother-in-law," "forty-seven." Certain exceptional names, such as O'Neil, MacDonald, De la Rue, are charged for as single words. So, too, are names with the prefix "St," as St Pancras; but double names of persons, like Smith-Payne, are counted as two words. Abbreviations of words, "can't," "won't," "don't," are counted as single words.

Figures are counted at the rate of five figures to a word. Fractions are counted according to the number of figures employed, one figure being added for the mark of division. In groups of figures a stop is counted as a figure. The symbols o/o, a/c, b/l, and c/o are each counted as one word. In ordinal numbers the affix st, nd, rd, or th is counted as two figures—thus "1st" counts as one word, "1432nd" as two words. When figures are preceded or followed by a letter (except in the case of ordinal numbers), the letter is counted as a word, but letters added to figures to denote the number of a house are counted as figures. Initial letters are each counted as one word, with the exception of the initials of the London Postal Districts, which are counted as one word for each group. Names of towns and villages in the United Kingdom are counted as one word each, irrespective of the number of words of which they are composed. When necessary to add name of town or county to the name of a place to distinguish from another of the same name, the name of town or county is not charged. When words are underlined, or in parenthesis or inverted commas, one extra word is charged. One word each is charged for signs of punctuation.

Anyone may register an abbreviated address on payment of £2 a year.

The cost of a reply, not exceeding forty-eight words, may be prepaid, and a reply form will then be delivered to the addressee, who will be at liberty to use it for any inland message, at any time within twelve months.

FOREIGN TELEGRAMS.

In telegrams written in plain language (English or French) the length allowed for a word is 15 letters. Additional letters are charged for at the rate of 15 letters to the word.

Subject to the limit as to number of letters, ordinary compound words and names of persons and places, &c., written without break or interruption, are counted as single words. If joined by a hyphen, or separated by an apostrophe,

they are counted as so many separate words. Compound numbers written in words and without break are also counted as single words subject to the same limit as to the number of letters. The name of the office of destination in the address is charged for as one word whatever its length; and when the name of the country, state, province, or district has to be added the whole expression is charged for as one word. Every separate letter or figure is charged for as one word. Groups of letters in cypher and groups of figures are counted at the rate of five to a word. Bars of division, decimal points, and stops used in the formation of numbers are counted as figures. Letters added to figures to form ordinal numbers are counted as figures.

Telegrams in Code language must be written in one of the authorised codes.

NIGHT TELEGRAPH LETTER SERVICE.

Night Telegraph Letters may be sent between any two towns in which the Head Telegraph Offices are open always for delivery by the first post the next morning—including Sundays if there is a Sunday delivery. The rate is 1s for 36 words or less, and 1d for every 3 words beyond 36.

Night Telegraph Letters must be in plain language. They should be written on telegram forms and the charges prepaid in postage stamps. They may be handed in at or telephoned to the Head Office of the town before midnight, or posted in time to reach it by midnight, prepaid at the above rate, in an envelope marked simply "Telegraph Letter." They may not bear multiple addresses; and registered telegraphic addresses will not be accepted.

RADIOTELEGRAMS.

Radiotelegrams are accepted at any Telegraph Office for transmission to ships equipped with wireless telegraph apparatus through any of the coast stations in the List given in the P.O. Guide.

Address.—The address of a radiotelegram should contain (1) the name of the addressee; (2) the name of the ship, prefixed "steamship" when there is a risk of the name of the ship being confused with the name of a Telegraph Office; and (3) the name of the coast station through which the sender wishes the radiotelegram to be sent. (The Post Office cannot give any assistance in the choice of the coast station.)

Radiotelegrams for Delivery by Post.—Radiotelegrams can also be sent to a ship to be posted as letters at a port of call. A charge of 3d is made for postage, in addition to the ordinary radiotelegraph charges.

Radiotelegrams from Ships.—In the case of a radiotelegram from a ship, the word "Radio" appears (as an indication of the manner in which the message has been transmitted) in the delivered copy in the space provided for the name of the office of origin, together with the name of the coast station through which the radiotelegram has been sent, and the name of the ship on which it originated.

FOREIGN AND COLONIAL TELEGRAMS, "Via IMPERIAL" CABLES.

Special facilities at reduced rates for telegrams sent "Via Imperial" (British Government Cables) to Canada, Australia, and New Zealand have been arranged. Deferred services by this route will be accepted at any post office

to Eastern Canada at 4½d a word. There is also a special week-end letter service by cable to Australia at 9d a word, and New Zealand 8d a word, with a minimum of twenty words. The rates for a very rapid service for ordinary cablegrams to these places "*Via Imperial*" are the same as by other routes.

AIR MAIL SERVICES.

London to Paris.—There are two air services to Paris daily, except Sundays; letters made up for despatch at G.P.O., London, 7.15 a.m. and 11.10 a.m. The 7.15 a.m. despatch benefits chiefly letters posted over night, whether in London or in the provinces, for Paris, which should reach the addressees in the early afternoon if prepaid for express delivery, and in the afternoon or evening if not so prepaid. The 11.10 a.m. despatch benefits chiefly letters from London for Paris and for places beyond Paris. Letters for express delivery may be delivered in Paris the same night, and others by first post next morning.

Unregistered letters, postcards, packets of printed papers and commercial papers and samples may be sent, but not insured correspondence.

Fees. (1) Ordinary foreign postage.

(2) An air mail fee of 2d per oz.

(3) An express fee of 6d per packet when express delivery is required.

These fees must be prepaid in postage stamps affixed to the packet. Unregistered packets should be posted in the ordinary way. Both covers must be prominently marked in left-hand top corner "Air Mail," or, if express delivery is desired, "Air Mail Express." The postage must be affixed.

London to Amsterdam.—There is one air service to and from Amsterdam daily (except Sundays), made up for dispatch at London G.P.O. at 7.15 a.m. Express air mail packets for Amsterdam and Rotterdam should normally be delivered the same evening, and non-express air mail packets for these places and for the rest of Holland by first post on the following morning. As letters sent by the ordinary night mail from London are not delivered anywhere in Holland until the following afternoon or evening, the air mail will normally be quicker by the greater part of a business day, and by the use of the air mail in both directions it will be possible to obtain from Amsterdam a reply to a letter from London within about thirty hours.

Unregistered letters, postcards, packets of printed papers, and commercial papers and samples may be sent, but not parcels or insured packets.

Fees. (1) Ordinary foreign postage.

(2) An air mail fee of 3d per oz.

(3) An express fee of 6d per packet when express delivery is required.

These fees must be prepaid in postage stamps affixed to the packet. Unregistered packets should be posted in the ordinary way. The cover must be prominently marked in left-hand top corner "Air Mail," or, if express delivery is desired, "Air Mail Express."

POST OFFICE SAVINGS BANK.—The Post Office acts as a Bank for Savings throughout the United Kingdom. In every town and in almost every village small savings may be paid in at the Post Office. The money will be held in safety by the Government, will earn interest, and, when required, may be drawn out again through the local Post Office wherever the owner may be.

Home Safes can be obtained at all Post Office Savings Banks. The Safe is a small steel box in which coins may be placed for subsequent deposit in the Savings Bank; it is locked when issued, but every Savings Bank Office keeps a key which will open it when presented for the purpose of having the contents placed to the credit of the holder. The charge for the Safe is 3s. Of this amount 1s is a registration fee and is not repayable, but the balance of 2s will be repaid if the Safe be given up in good condition.

Forms to which stamps may be affixed are supplied at Post Offices for the assistance of children and others unable to save more than a penny or two at a time.

Special facilities are provided for assisting managers of Penny Banks, and for the saving of pence by children attending elementary schools. Information on the subject will be furnished on application to the Controller of the Savings Bank.

Special facilities are also afforded to depositors in the Post Office Savings Bank for making investments in Government Stock, for purchasing Annuities, and for effecting Life Insurances.

THE USE OF TELEPHONES FOR SENDING TELEGRAMS AND EXPRESS LETTERS.—Any subscriber to a Telephone Exchange may telephone messages to many Post Offices, so that these messages may be dealt with as Telegrams or Express Letters or Ordinary Letters; and Telegrams may be delivered by telephone instead of by messenger (if the subscriber has a registered telegraphic address). Telegrams may also be addressed to the telephonic addresses of Exchange subscribers for delivery by telephone. The address must comprise the subscriber's name, thus—"Jones, Midland 245, Birmingham," or "Jones, Hull 245."

An Express Letter telephoned to a Post Office is delivered for the usual Express Delivery fee if it does not contain more than 30 words, including the address. If it exceeds that number, each additional 30 words, or part thereof, is charged for as a separate Express Letter. Any subscriber to a Telephone Exchange may obtain the services of an express messenger by telephoning to the nearest Post Office.

STREET DIRECTORY.

See LIST OF STREETS, SQUARES, &c., at beginning of Directory.

NUMBERING OF STREETS.—In Dundee it has hitherto been the practice to number the Streets with the odd numbers on the *right* hand side of each street, and the even numbers on the *left*. In the Directory, therefore, the names have been arranged in the same way—the *odd* numbers first, 1, 3, 5, 7, &c., then the *even* numbers following in the reverse direction, as 8, 6, 4, 2. The Broughty Ferry Streets, however, are so arranged that the order of the buildings begins on the *left* hand side of the street, returning on the *right* hand side in the reverse direction. This should be kept in mind when consulting the Directory.

The List of Streets, Squares, &c., on page 19 (which has reference letters to denote the position of each street on the Plan of Dundee, and reference numbers and letters to indicate Registration Districts and Ward Boundaries) will be found serviceable in determining the situation of any required locality.

CLEAN WASHED SAND AND GRAVEL

BY ROAD, RAIL, OR SEA.

For over a quarter of a century we have successfully specialised in marketing the various grades of Sand and Gravel required for Industrial and other purposes.

Our products are recognised by prominent Engineers, Architects, Reinforced Concrete Experts, and Tradesmen, as "standard," owing to their uniform high quality.

Our success in maintaining and guaranteeing the quality lies in the adoption of most ingeniously designed plant, in which are embodied quite a number of inventions, in addition to Patent No. 136624, "System of loading Vessels with Solids from Centrifugal Pumps." The plant enables us to efficiently dredge, wash perfectly clean, and grade enormous quantities at extremely low cost, the product retained for market being rendered absolutely free from all Clay, Mud, Slime, Silt, or Rubbish.

This is better understood by the fact that on an average there is used over ten tons of water to wash, clean, and grade every ton of Sand or Gravel we retain for our Customers. Samples and Prices on application to—

**CRIGHTON'S
PATENT WRINGER PLATE.**

The plate herewith has been designed to meet a much-felt want in the Wash-house, as the methods hitherto adopted for fixing the Wringer to the earthenware tubs have been invariably unsuccessful, and have caused much inconvenience to the users.

The Plate is made in one piece and is of Cast-Iron—Galvanised to prevent Corrosion—and although fixed between the tubs there is no risk of cleavage, as the double flange bearing upon the tubs counteracts this tendency. The ends of Plate are chequered on both sides to give wringer screws a secure hold, and any ordinary size of wringer can be fixed to same.

It may be had in Light or Heavy Pattern.

but see not”—is undoubtedly the reason why many people find so little beauty in the world. Their eyes take in the big things, but fail to see the smaller and finer things. The pity is they rarely realise how much they miss which others enjoy. Fortunately sight which is below normal can be wonderfully helped with modern glasses. The Dundee Royal Infirmary.

THE ROYAL INFIRMARY was founded in 1782, and has gradually increased its provision for the sick and hurt by building and by undertaking the control of branch Institutions until now there are over 530 beds available for the treatment of patients. The number under treatment at the Infirmary from 15th May to 31st December 1922 was—indoor, 3684; the number of persons who attended for advice or medicine at the outdoor departments was 8729; while 4622 visits were made by Nurses from the Maternity Hospital to patients at their own homes. At the Convalescent Home during the year ended 31st December 1922, 857 patients received the advantage of a rest after their illnesses, and at the Sidlaw Sanatorium the treatment of 103 children was continued with beneficial results.

The cost of maintenance of the Infirmary for the period from 15th May to 31st December 1922 was £25,626, and the ordinary income was £15,548.

The Directors renew their appeal for the endowing and naming of beds and cots, the sum necessary to endow a bed or cot being £1050, to name one, £210. Subscribers are earnestly solicited to *increase* their Subscriptions, and to induce those of their friends who do not contribute to the Funds to become Subscribers. An addition of £10,000 to the ordinary yearly income is required in order to meet the expenditure. The names and addresses of any who are likely or willing to subscribe should be sent to the Treasurer,

NATIONAL EMPLOYERS' MUTUAL

GENERAL INSURANCE ASSOCIATION, LTD.

THIS MUTUAL INSURANCE OFFICE, originally formed by seventy Lancashire employers for the purpose of meeting their Liability under the Workmen's Compensation Acts, has enjoyed a record of continuous progress. Being entirely Mutual, all Profits are returned to the Policyholders every three years. The Cash Bonus to the Insured for the years 1914, 1915, and 1916, was 15%; and for the years 1917, 1918, 1919, 1920, and 1921, 20%. The leading features of this Office are:—

1. Being purely Mutual, the Whole Profit belongs to the Policyholders.
2. The Expenses of Management are fully 15% below the average of all Offices.
3. In spite of the Low Premiums, the Ratio of Profit earned is much higher than the average of all Offices.
4. The Saving in Cost to Policyholders is really a Reduction in Premium of from 15% to 50% below the Tariff.
